## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendment and remarks filed on September 17, 2008, are noted with appreciation.
2. Claims 1-10 remain pending.

### ***Election/Restrictions***

3. Claims 1-5 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on September 19, 2007.

### ***Response to Arguments***

4. The objections to the specification set forth in the prior Office action are withdrawn in view of the amendment.
5. The rejections under 35 USC 112, 2<sup>nd</sup> paragraph, are all withdrawn in view of the amendment *except* the rejection of claim 6 regarding mesh size. Claim 6, as amended, fails to clarify what standard is being used for comparison and the specification continues to lack criteria by which one may determine which mesh sizes are included and which are excluded.
6. The rejection under 35 USC 103(a) set forth in the prior Office action is maintained. Applicant has not addressed the specific argument of the Examiner: that mesh size is a result-effective variable. Further, Applicant has presented no evidence

Art Unit: 1792

demonstrating the criticality of the claimed mesh size. Consequently, the Examiner's position remains unchanged.

7. The double patenting rejections set forth in the prior Office action are moot since co-pending 10/532,227 was abandoned February 13, 2008.

***Claim Rejections - 35 USC § 103***

8. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

9. **Claims 6-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Saint Victor (US 6,211,308 B1) in view of Tugwell (US 4,037,008 A).**

A. These claims remain rejected for the reasons set forth under this heading in the prior Office action and as explained above.

***Conclusion***

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
